Response to Amendment

1. This action is responsive to Amendment / Arguments, received on 10/27/2004.

Reasons for Allowance

2. Claims 1-53 are allowed.

The following is an examiner's statement of reasons for allowance:

The invention relates to implementing a bufferless collision management mechanism. The unique method steps include "detecting traffic patterns in a bufferless network and generating a control signal to regulate traffic patterns". The closest prior art of record, Newman et al. (US 5,582,601) fails to disclose the above underlined limitations as claimed in claims 1, 19, 32, 37 and 53 and renders it allowable.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M Qureshi whose telephone number is (571) 272 3178.
